I have a Section Meeting from 10-12, but I'd be willing to skip part of it. Let's tentatively plan to meet at my cube at 11 AM. I'll probably want to show you some stuff on the computer so we can start there.

Chip and Eric, you're welcome to join us if you'd like.

Karen - Do you have time between 10:30 and 12 on Feb 11 to go over this? I'll be in town and would be available between those times.

Stormwater modeling results

If any or all of you would like to hear more about the latest round of stormwater results, let me know. I've analyzed the data a few different ways to answer a few different questions.

I don't know that we need to set up a meeting - perhaps we could connect sometime when you are in the office. I could walk you through the process/results in a half hour, and could also give you the files if you want to do some more of your own poking around.

Karen
